

This is Bob Brenna Junior from the law firm of Brenna and Brenna.

For about ten years I've been sponsoring radio messages and the Brenna and Brenna law forum for several reasons.

One is certainly selfish in that it makes me more recognizable.

But I also know that the millions of dollars spent to convince you to take away the laws that protect construction workers or to keep innocent victims who've suffered catastrophic personal injuries from getting a fair shake in court, or to increase profits for big insurance companies can't go unchallenged.

Dangerous products can't be profitable or we will all suffer. Poor care in nursing homes can't be more profitable than good care.

I know I can't compete with them dollar for dollar but I'll speak out for what I believe in.

Don't buy the propaganda. Research the truth.

E-mail me or call me for free information.

Let's at least give ourselves a fighting chance.
